PROFESSIONAL SUMMARY

 Senior Manager with a strong background in Data Operations and experience of 5.9 years, seeking transition into a Full Stack Developer role. Skilled in leading teams, managing projects, and optimizing data processes. Possess a B.E. degree in Information Science and a passion for software development.

KEY SKILLS AND STRENGTHS

- Data Operations Management
- Full Stack Development
- Project Management
- Database Management
- Problem solving and Analytical Thinking

TECHNICAL SKILLS

Programming Languages: JavaScript, Google Apps Script

• Web Technologies: HTML, CSS

Databases: PostgreSQL

• APIs: RESTful API

WORK EXPERIENCE

Senior Manager Data Operations, Tracxn Technologies Limited, Bangalore, Jun 2022 - Present

- Led a team of data analysts and engineers in managing and optimizing data processes.
- Implemented strategies to improve data quality, accuracy, and efficiency using a combination of data analysis techniques and software development.
- Developed and maintained internal tools and dashboards using JavaScript, HTML, and CSS to visualize and analyze data trends.
- Collaborated with cross-functional teams to integrate data analytics solutions into web-based applications, leveraging front-end technologies such as React.js.
- Utilized programming languages such as JavaScript, Google Apps Script and postgreSQL to extract, transform, and load (ETL) data from various sources into centralized databases.
- Played a key role in designing and implementing data-driven decision-making frameworks, incorporating user-friendly interfaces developed with HTML/CSS and JavaScript frameworks.

Manager-Data Operations, Tracxn Technologies Limited, Bangalore, Jun 2020 - Jun 2022

 Led a team of data analysts and engineers in managing and optimizing data processes using a combination of technical expertise and managerial skills.

- Implemented strategies to improve data quality, accuracy, and efficiency through the use of JavaScript, HTML, CSS, and PostgreSQL.
- Oversaw the development and maintenance of internal tools and dashboards built with JavaScript, HTML, and CSS, facilitating data visualization and analysis for stakeholders.
- Utilized PostgreSQL database management system to store, retrieve, and manipulate large datasets efficiently, ensuring data integrity and security.
- Collaborated with cross-functional teams to integrate data analytics solutions into business processes, leveraging front-end technologies like JavaScript and HTML/CSS to enhance user experience.
- Provided technical guidance and mentorship to team members, ensuring adherence to best practices and continuous improvement in data operations.

Information Executive, Tracxn Technologies Limited, Bangalore, May 2018 - Jun 2020

- Conducted comprehensive research and analysis on emerging technology companies, gathering data from various sources such as industry reports, news articles, and online databases.
- Utilized JavaScript, HTML, and CSS to develop and maintain internal tools and dashboards for data collection, organization, and visualization.
- Designed and implemented user-friendly interfaces using HTML/CSS to enhance data accessibility and usability for internal stakeholders.
- Leveraged JavaScript to add interactivity and functionality to web-based applications, improving user experience and efficiency in data processing.
- Utilized PostgreSQL database management system to store, retrieve, and manipulate large datasets effectively.
- Collaborated with cross-functional teams to integrate data analytics solutions into internal processes and workflows, contributing to data-driven decision-making efforts.

KEY PROJECTS

1. MIS Console:

- Led the development of the Management Information System (MIS) Console, a centralized platform for monitoring and analyzing key performance indicators (KPIs) and metrics.
- Utilized Google Apps Script to automate data retrieval and processing from various sources, ensuring real-time updates and accuracy of information.
- Designed and implemented interactive dashboards using JavaScript, HTML, and CSS, providing stakeholders with intuitive visualizations and drill-down capabilities.
- Integrated PostgreSQL database backend to store and query large datasets efficiently, enabling data-driven decision-making at the executive level.

2. Manager Review Console:

- Spearheaded the implementation of the Manager Review Console, a tool for managers to evaluate team performance, provide feedback, and set goals.
- Leveraged Google Apps Script for workflow automation and email notifications, streamlining the review process and enhancing accountability.
- Developed a user-friendly interface with JavaScript, HTML, and CSS, allowing managers to access performance metrics, review employee progress, and submit evaluations seamlessly.

 Utilized PostgreSQL database to store employee performance data securely, facilitating historical analysis and benchmarking.

3. Publishing Console:

- Orchestrated the development of the Publishing Console, a centralized platform for content management and publication.
- Leveraged Google Apps Script for content ingestion and processing, automating workflows for content creators and editors.
- Designed and implemented a responsive web interface using JavaScript, HTML, and CSS, enabling editors to manage content assets, schedule publications, and track performance metrics.
- Integrated PostgreSQL database backend for storing metadata and tracking content lifecycle, ensuring data consistency and accessibility across teams.

4. News Active Ticket DB:

- Led the implementation of the News Active Ticket Database, a system for tracking and managing tickets related to news article updates and corrections.
- Utilized Google Apps Script for ticket creation, assignment, and status tracking, streamlining communication and collaboration among editorial teams.
- Integrated PostgreSQL database backend to store ticket metadata and audit trails, facilitating accountability and continuous improvement in news content quality.

EDUCATION

- B.E in Information Science and Engineering from New Horizon College of Engineering with 73.21% marks (2012-2016)
- Class XII in PCMC from New Horizon PU College with 86% marks (2011-2012)
- Class X from Maruthi Vidyalaya School (ICSE) with 76.14% marks (2009-2010)

AWARDS & HONORS

- Awarded as Star Manager for 2nd Quarter 2021
- Awarded as Star Performer Manager DataOps in Central Scan Team from April 2023-June 2023
